Professional Profile

Dr. Mousaab Alrhmoun is a senior researcher in Engineering and Sustainable Development, and the President of the Syrian Italian Council (SIC). He is an internationally active academic and policy expert specializing in development economics, project management, environmental systems, and post-conflict reconstruction policy frameworks.

He has held research and academic positions in Italy, France, and the United States, and has contributed to multiple international projects in the fields of agriculture, industrial technologies, and sustainable development.

Through his leadership of the Syrian Italian Council, he actively promotes economic and commercial cooperation between Syria and Italy, facilitating investment linkages between European industrial actors and Middle Eastern development opportunities. The Council includes more than 130 international companies and traders, forming a structured platform for cross-border economic cooperation.

He is an expert in economic development, reconstruction strategies, and public policy design, and has contributed to scientific and strategic discussions on development economics, governance systems, and modern administrative transformation frameworks.

Languages: Arabic, English, French, Italian , German.

Focus: Development of integrated post-conflict reconstruction frameworks and large-scale multi-sector investment roadmaps.
